PROJECT DETAILS

- **Project 1** : Media Streaming Application.
- **Period** : Sep 2022 - Till Date.
- **Role** : Frontend Developer.
- **Web Technology** : JavaScript , ES6 , React.js , Redux Toolkit , Material UI , CSS.
- **Description** : Streaming media is video content sent in compressed form over the internet and played immediately over a user's device, rather than being saved to the device hard drive or solid-state drive.
- **Responsibilities** :
 - Involved in Designing of technical solutions based on client needs.
 - Developed the components by using the React JS & Redux.
 - Used Lazy loading for optimizing web applications.
 - Worked with redux for state management. Create store , actions and reducers.

- Collaborating with other team members and backend developers.
- Integrated the REST API calls to SPA.
- Assure that all user input is validated before submitting to the back-end.
- **Project 2** : Car Rental Application.
- **Period** : May 2021 - Aug 2022.
- **Role** : Frontend Developer.
- **Web Technology** : JavaScript , ES6 , React.js , Redux , Material UI , CSS.
- **Description** : Car Rental means the rental of a vehicle for a short period of time by a traveler for official or personal purpose.
- **Responsibilities** :
 - Developed the application by doing regular interactions with team members.
 - Maintaining and updating existing code.
 - Integration of APIs with applications.
 - Involved in Designing of web user interface.

PERSONAL PROJECTS

- **Stack Overflow (MERN)**

Live - link : <https://stack-overflow-clone-peach.vercel.app>

This is my recently created **Full Stack website** , which is Stack Overflow Clone with Chatbot Customer Support. Here people can ask the questions , post the answers and vote the question etc.

- **CRUD App (JSON Server)**

Live - link : <https://crud-two-theta.vercel.app>

The project includes all the crud operations like get , post , patch , delete on Rest API.

- **Social Media App (React JS)**

Live - link : <https://social-mediaa-ui.netlify.app>

A simple Social media platform using react and materialUI icons for good UI design. This project contains a Register page , Login page , Profile page and Home page where users can share a post , like a post , comments.
